

Dear Valued Client,

We're excited to share that STANLEY Healthcare is now officially part of Securitas! Today is a defining moment, as we join forces to become a leading health, safety, and security partner that helps make the world a safer place.

STANLEY Healthcare is now Securitas Healthcare, which will continue to serve the acute care and senior living industries with the trusted, innovative solutions you've come to expect from us. Our combined expertise, complementary offerings, and global footprint will create significant value for clients like you.

We believe the future is built on global presence, connected technology, and intelligent use of data. Securitas Healthcare will unlock opportunities for new technology and innovative solutions across the entire value chain. Now more than ever, organizations need a partner that can deliver solutions that meet today's demands and tomorrow's challenges.

We're excited to get started and hope you share our enthusiasm. You can rest assured that maintaining continuity in our service and support offerings is our biggest priority throughout this transition. All products, systems, and services remain fully accessible and supported.

Your account team and contacts will remain the same. In general, most contracts and service agreements will remain in place, unchanged. At this time, you do not need to update billing and payment information, but we'll let you know when that will change (as far in advance as possible).

In the meantime, if you have any questions, please contact your account representative directly. [Join our mailing list](#) to continue to receive important updates and information around our products and services.

Thank you for putting your trust and confidence in us every day. We take great pride in serving you.

Best regards,

Tony Byerly
Global President Securitas Technology

Bill McCarthy
President Securitas Healthcare
